

## HOW TO PLAY

**Goal** Build stacks of delicious cakes together. Fill the most orders to win!

**Start the Game** Set the rules & *Top Baker* cards aside, stack all order cards face up, then shuffle the deck. Deal 3 cards face down to each player. Set the deck face down. The player left of the dealer goes first.

**Start Your Turn** Play or discard a card from your hand or fill an order. *You may not skip your turn.*

**Cakes** Play face up in the middle of the table as a new stack **or** on top of another (up to 4 stacks of 8 cakes each). *You may not discard cakes.*

**Actions** Play face up to mix up cakes (or other players!) then discard.

**Orders** From available orders, find cakes in a stack that match an order pattern. If you do, place that order card face up in front of you and discard any cakes you used to fill it.

## HOW TO PLAY (CONT.)

**End Your Turn** You may play or discard cards in your hand or fill more orders. When you're done, draw cards until you have 3 in your hand. *If you run out of cards, shuffle the discards into a new deck and continue to draw.* The next player starts their turn and play continues.

**End the Game** Keep track of your score with the order cards in front of you. If you have **10+ points**, you win the round. Gain a *Top Baker* star and start again. **The first player to get 2 stars wins the game!**

## HOW TO SET UP THE TABLE

**1.** Set the deck face down & discards face up, on the side but within reach.

**2.** Leave room for cakes in the middle. On their turn, any player may add cakes to the top of a stack, move them as directed by action cards, or use them to fill orders.

**3.** Make 5 stacks of order cards, one for each type, all face up.

## HOW TO FILL AN ORDER

**1.** Match cakes in any sequence:

**BUT** they must be together:

**2.** Place the order card in front of you and discard the cakes you used.

**3.** Slide any top cakes down to fill the gap left by your order. *You may fill more orders in your turn if possible.*
