

THIS

or

or

THAT

How to Play THIS or THAT Pt. I

- 1.** Distribute one TRUE and one FALSE card to each player.
- 2.** The first player (the Questioner) draws a question card and reads it aloud.
- 3.** The Questioner answers the question aloud. The Questioner is allowed to lie both here and in the next step.
- 4.** The Questioner plays either a TRUE or FALSE card facedown.

How to Play THIS or THAT Pt. 2

5. The other players (the Listeners) guess whether the Questioner has played TRUE or FALSE and plays their own TRUE or FALSE card face-up. Listeners may request an explanation of the Questioner's choice before deciding on which card to play.

6. If there are no matching cards, e.g. the Questioner has played TRUE but all Listeners have played False, the Questioner keeps the card.

7. If there is only one matching card, the Listener who played the matching card keeps the card.

How to Play THIS or THAT Pt. 3

8. If more than one Listener has played a matching card, e.g. the Questioner played TRUE and Listener 1 and Listener 2 both played TRUE as well, then the Listeners play Rock-Scissors-Paper to determine who keeps the Question card.

9. The player to the Questioner's left draws a question card and becomes the new Questioner. The first player to collect 7 question cards wins.
